- Analyzed CRM project architecture and enhanced front-end and back-end functionality using PHP and Laravel.
- Managed databases with phpMyAdmin, including data entry, retrieval, and optimization.
- Gained practical web-development experience and completed the internship program.

EDUCATION

Apr 2025

Vadodara, Gujarat

B.Tech in Computer Science & Engineering

Parul Institute of Technology

Coursework: Object-Oriented Programming, Database Management Systems, Computer Networks, Data Structures, Operating Systems

GPA: 6.9/10

ACHIEVEMENTS & CERTIFICATIONS

- Completed the "Software Engineering" course by SWAYAM NPTEL with a score of 70%, strengthening knowledge of software development, testing, and quality assurance.
- Completed internship at CODTECH IT Solutions with positive performance feedback.

PROJECTS

Portfolio Website: Live Link, Tech Stack: React.js, HTML, CSS. Hosted on Hostinger. Designed and developed a fully responsive personal portfolio website using React.js to highlight skills, projects, and contact information with a clean and modern aesthetic.

CRM Enhancement Project: Collaborated with the team to enhance an existing CRM software by upgrading front-end and back-end modules using PHP and Laravel. Utilized phpMyAdmin for database management, including data entry, optimization, and retrieval processes. Improved user experience and maintained project documentation.

UI/UX & Collaborative Document Platform: Collaborated with team members to improve UI/UX components and maintain detailed project documentation. Enhanced public-source code and built dynamic user-interface components for collaborative document editing using React.js. Achieved success in integrating REST APIs and ensuring smooth communication between front-end and back-end systems.
